

Call for short workshop proposals for RAUGM 2017

The call for short workshop proposals, to be held at the Mexican Geophysical Union Annual Meeting (RAUGM) 2017, will be open from April 4 to June 4 2017. Proposal applications for short workshops should be sent using the online form at the RAUGM website (<https://www.raugm.org.mx>).

The person responsible for the application must be an active member of the UGM, but the lecturers or workshop assistants may be non-members. The short workshop should be held within a day (from Monday to Friday), for a maximum of 8 hours (4 hours in the morning and 4 hours in the afternoon). At least 5 participants should register for a workshop to open. The workshop date and time will be defined based on the general conference timetable. The UGM will not provide any type of financial support for the workshop lecturers other than their registration to RAUGM2017. In particular, if the lecturers are also submitting conference abstracts, the registration of those contributions will not be covered by the UGM.
